

TRUE TIME SAVER...

JPC Products Announces a New High Speed Cassette System "The Poor Man's Floppy" for the TRS-80* \$90 Kit - \$120.00 fully assembled.

The TRS-80* is a great small computer. But its cassette recording system can be very frustrating, particularly if you can't read an important cassette. JPC Products Company has developed an improved cassette system that uses your present cassette recorder but operates much faster with better reliability. The TC-8 plugs into the expansion connector on the back of the keyboard and saves and loads 5 times faster! Less than ONE BAD LOAD in a MILLION BYTES! With the VOLUME CONTROL ANYWHERE BETWEEN 1 AND 8. The TC-8 is available in an easy to assemble kit or fully assembled. JPC has an exclusive "can't fail" kit guarantee.

If you build the TC-8 and for any reason it doesn't work, we will make it work at NO COST. All you have to pay is the shipping. We guarantee it. The TC-8 magic is partly done in software. So you have to load a small program in upper memory. It is usually out of the way there. We provide the software on a cassette that comes with the TC-8. Just load it in. Here's how you order. Send

\$90.00 for the kit (\$120.00 fully assembled) plus \$3.50 postage and handling to JPC Products Co., 12021 Paisano Court, Albuquerque, NM 87112 (N.M. Res. add 4% sales tax.) Credit card orders accepted by phone or mail.
